

Regarding K-LOVE in Chicago, IL, this station provides a safe, commercial-free, upbeat alternative to other contemporary music stations in this area while many other contemporary stations contain language or lyrics which I find offensive both for myself and for my family of 5. It would be a sad day indeed if this station were swallowed up by more of the same garbage that is already prevalent on the air. Please, we respectfully request that you do not replace the Joliet/Chicago area K-LOVE signal with an LPFM. Thank you for your kind consideration.

Sue Batzer
